

EXTENDED FIELD COVERAGE "9 YD MARKS"

There is a deliberate policy by the CCA to influence wing officials to widen their initial positioning. This enhancement will enable officials to improve selected aspects of their style and efficiency. Please review the following with a positive approach and work to improve your game. The mechanics change addresses snaps at the near inbounds line as well as snaps at other field locations.

RECOMMENDED YARD-LINE NUMBERING

Changes to support better control of playing surface:

- * Legality of substitutions
- * Fringe area officiating
- * Unsportsmanlike acts

VALUE ADDED CONSIDERATIONS:

- * Improved evaluation of forward progress spots
- * Better evaluation of sprint out passing and option games
- * Improved goal line coverage
- * Efficient key control

"After the ball is ready for play and before the snap, each substitute of Team A shall have been between the nine yard marks. Team A players who participated in the previous down shall have been between the nine yard marks following the previous down and before the next snap."
